

VoiceXML Forum Grant Program Full Proposal/Protocol

Applications will be accepted through Box on the www.voicexml.org/grant page.

Goals and Objectives

- Provide the main goal of the work. Provide a detailed definition that is directly linked to the primary objective.

Assessment of Need for the Project

- This should reflect your work rationale. Provide a brief description on the issues involved in this work and the rationale of how this work would address the question.

Target Audience

- Describe the primary audience(s) targeted for this project.
- Also indicate whom you believe will directly benefit from the project outcomes.

Project Design and Methods

- Describe concisely the research design, methods and anticipated work for achieving the stated goals.

Innovation

- Explain what measures you have taken to assure that this project idea is original and does not duplicate other projects. Describe how this project builds upon existing work, pilot projects, or ongoing projects developed either by your institution or other institutions related to this project. Any and all intellectual property must be placed in the public domain.

Evaluations and Outcomes

- Specify type and frequency of safety, efficacy, and/or outcome measures. Specify the type of outcome you are expecting. Highlighting any concerns regarding security. Also indicate the method(s) used to assess measures.

Anticipated Project Timeline

- Provide an anticipated timeline for your project including project start/end dates.

Additional Information

- If there is any additional information you feel Expert Review Panel should be aware of concerning the importance of this project, please summarize here.
- Early-career applicants: Letter(s) of support from mentor(s) and collaborators describing how the award will advance the applicant's career.

References

- Bibliography of relevant references. (Please upload a separate document if needed)
